

Freeze Strawberries for Later (every berry used)

Ingredients:

1 lb. container fresh Bobalu strawberries
Freezer bag
Cookie sheet

Directions:

Remove any blemishes from berries and remove green cap. Place berries in a single layer on a cookie sheet separated so they do not touch or overlap. After frozen (a few hours) you can place them into a freezer bag or container and put back into the freezer until ready to use. Freezing them individually first on the cookie sheet will prevent them sticking together (or clumping) so you can remove just a few whole berries at a time for your favorite recipes. Check out our simple syrup (recipe on website) recipe as an example.
