

## VODKA STRAWBERRY LEMONADE 🍓

1 C sugar  
1 C water  
1 C Bobalu Strawberries, diced  
Bottle of lemonade of your  
choice (we used  
[@simplyorange](#))  
Crushed ice  
Mint and lemon wedges, for  
garnish

In a small saucepan, combine the sugar, water and strawberries and bring to a simmer until the sugar is dissolved. Allow to cool. Add into the jar of a blender and puree until smooth. Strain through a fine mesh sieve into a pitcher. Add in desired amount of lemonade, depending on how many cocktails you are making. Fill each glass 3/4 of the way full with crushed ice. Add mint and lemon wedges and pour pitcher ingredients over top. Still well and drink immediately.
